BUCK SUDDENLY REALIZES THE MEANING OF THAT PASS THING!

ORDER JAIL ABOLISHED.

Prison Commission Finds Wappingers Falls Prison a Menace.

Denouncing the Wappingers Falls jail as unsanitary and unfit to keep prisoners in, even temporarily, the State Prison Commission, it was announced yesterday, has ordered the place abolished.

An inspector found the cells dirty, damp and poorly heated. Husbands were driven about and plaster was rambling from the ceiling. The jail was found to be a menace to prisoners.

The commission ordered Village President Sullivan and other officials to show cause May 7 why the jail should not be shut up. It is several miles to the nearest other detention place.

Careless Use of Soap Spoils the Hair

Soap should be used very carefully if you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is just ordinary mulitified coconut oil (which is pure and greaseless), and is better than the most expensive soap or anything else you can use.

One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get mulitified coconut oil at any pharmacy, it's very cheap, and a few ounces will supply every member of the family for months.—Adv't.
